

# Roong Village School | Cambodia

## New secondary School

Roong Village, Cambodia

phase 1: completed in 2014

phase 2: on hold

Project in collaboration with:

The new comprehensive school, designed in collaboration with Architetti Senza Frontiere, will accommodate the children coming from the "Roong Christian School", founded in 2006. The center includes both classrooms/workshops and teachers/volunteers areas, joined by common arcades and playground areas. It will be made of bamboo structure and adobe bricks, easy available and low environmental impact materials.
